## EXPERIENCE

### **Designathon Spectrum Play — Solo Participant**

August 2024

I joined this early upon request to the contest holders to get experience before joining Interaction Design 1.

-Designed an executed a functioning design and layout for a startup website independently.

-Learned more features of Figma, interacting with clients, and the design process.

## EDUCATION

### **Kennesaw State University — Minor in Computer Science**

August 2021 - Present

I completed my minor in Computer Science after becoming interested in coding and development in highschool which led to me to discover front end development and UI design.

### **Kennesaw State University — Major in Interaction Design**

August 2024 - Present

I discovered Kennesaw State University offered this degree in my junior year and immediately decided it was right for me, this added some time to my graduation but I've fallen into it completely.

### **Google UX Design, Coursera — Certificate of User Experience Design**

August 2024 - Present

## OUTSIDE EXPERIENCE

### **Arbor Assisted Living Community- Server and Resident Specialist**

I feel a strong connection to care taking, family, and community. Here I am able to interact and understand people with cognitive and physical disabilities and assist them in times of need.

## SKILLS

Java code

HTML/CSS code

Figma

Adobe After Effects

Photoshop

IntelliJ, Visual Studio Code,  
Eclipse
